Cutting Your Cost

Simple But Effective

Truly Standalone

Stand Alone Terminal Edition

The Lonestar LS-836 is an outstanding value in the biometric time clock market. This powerful terminal comes complete with a comprehensive set of

workforce management data collection tools. The LS-836's ability to accurately capture and process data will enable you to streamline payroll management like never before. Utilizing state of the art biometric technology your employees will be able to record their punches instantaneously with industry leading accuracy.

Our engineering team has designed the LS-836 to be the easiest stand alone system to install in the market. By including the option of USB flash download, the LS-836 can now be mounted anywhere without any hardwiring costs or installation time – all that is needed is a power outlet!

**One Touch Clocks in and
One Touch Clocks out**

Lonestar LS-836 Simplifies the Payroll Process

- Prepare time cards
- Compute employee payroll date
- Ensure consistent pay policies
- Monitor employee attendance
- Calculate and maintain overtime
- Track vacation and sick time
- Schedule employee hours
- Provide flexible shifts

About Us

Lonestar Industry Group, LLC is a master distributor of AIDC (Automatic Identification and Data Collection) and POS (Point of Sale) products supplied by a dozen top manufacturers in America and Asia. We aim to provide high quality products and value-added services to resellers in North America, Europe, and Asia.

We also partner with top Biometric R&D teams and manufacturers to develop our own fingerprint time and attendance systems. Lonestar LS-836 Fingerprint Time and Attendance System is our flagship product.
