# How to install the software in Windows Vista/7/8

For WINDOWS VISTA/ 7/8:

Please note that Microsoft MSDE database (in the software CD) is <u>not</u> compatible with WINDOWS VISTA/7/8. You need to install Microsoft SQL 2005 or later Express Edition.

# Instructions

1. Installing Microsoft SQL 2012 express edition.

<u>Supporting Systems</u>: Windows 8, Windows 7, Windows Server 2008 R2, Windows Server 2008 Service Pack 2, Windows Vista Service Pack 2 (If you are using an earlier version Windows but later than Windows XP, <u>click</u> <u>here</u>.)

Note: You <u>must</u> have administrative rights on the computer to install SQL Server Express.

For 32-bit Windows vista/7/8, click http://download.microsoft.com/download/8/D/D/8DD7BDBA-CEF7-4D8E-8C16-D9F69527F909/ENU/x86/SQLEXPR32\_x86\_ENU.exe

For 64-bit Windows vista/7/8, click

http://download.microsoft.com/download/8/D/D/8DD7BDBA-CEF7-4D8E-8C16-D9F69527F909/ENU/x64/SQLEXPR\_x64\_ENU.exe

To start the installation immediately, click Run. To install SQL Server Express at a later time, click Save. SQLExpr.exe is a self-extracting installation package of SQL Server Express. For further info, please go to Microsoft's website: <u>http://www.microsoft.com/en-us/download/details.aspx?id=29062</u>

2. You <u>must</u> follow the instructions from page 2-20 in this document.

# Microsoft SQL server 2012 express edition and new software connection guide FOR WINDOWS VISTA/7/8

Note: This guide is temporary. You can go to Time Clock Support at <u>www.lonestargrp.com</u> for the latest update in the near future.

PLEASE MAKE SURE TO READ THE NEXT TWO PAGES:

#### **IMPORTANT TIPS:**

When you need to move the A1 software to a new PC, you can go to System Management-Data Management to backup a database and restore it in the new pc.

To backup a database, you need to take full control of a folder. GO TO: C:/Program files (x86)/MIS/A1/Backup, right click Backup- properties.

# **Trouble Shooting**

### If you happen to encounter the following:

Database configure		23
Connection of databa	ase	
1. Server name:	.\SqlExpress	¢
2. Connection		
C Window	vs validation	
Sql Se	Attend System	
	Database test ok!	
3. Select DB		
C New d	OK	
Name	a11	Create( <u>B</u> )
Connect	t to the existing database	
Name	a11 💌	¢
Server is running	Log on( <u>O</u> )	Exit(X)

If you can enter the program but can not do personnel entry:

- 1. Go to control panel-user account to disable all the users.
- 2. Or go to system and security-administrative tools-local security policy:

4. Now you should be able to do personnel entry. You can enable "User Account control" again, but make sure to start A1 as administrator.

## How to uninstall Microsoft SQL server 2012 express edition:

#### I. go to control panel- programs and features:

III. Right click computer-Manage-and you see the following figure:
